Pier D (Cache 1 of 6)
(50° 03' 46.08554", 96° 53' 8.27709")

Congratulations! You've found the first monument.

Your next destination is Pier C, 26.899768 km from here, at coordinates 50° 14' 28.75737" North, 97° 08' 22.27317" West. Station access description for Pier C is:

Pier C is located near the Northeast corner of Section 32, Township 14, Range 3, EPM. From the intersection of Highway 7N and Highway 67E, East of the town of Stonewall, proceed North 11.2 km on Highway 7 to a secondary road, then proceed East 8.0 km along said road to the station site on the North side of the road. Monument is located at the intersection of drainage ditches on the North limit of Oak Hammock Marsh.

Please be sure to log on your log sheet (extras are available in the cache) and the log book the following information:

- **The current date**
- **The current time (HH:MM)**
- **The number of satellites locked**
- **Whether or not WAAS is in use**
- **Distance reported to cache waypoint**
- **Bearing to cache waypoint**

Pier C (Cache 2 of 6)
(50° 14' 28.75737", 97° 8' 22.27317")

Congratulations! You've found the second monument. The next is somewhat closer.

Your next destination is Pier B, 13.018958 km from here, at coordinates 50° 14' 28.58826" North, 97° 19' 19.25495" West. Station access description for Pier B is:

Pier B is located on the Northwest corner of the intersection of Provincial road #236 and a rural gravel road about 11.2 km North of the town of Stonewall. From the Winnipeg bypass (Highway 101) travel North on Highway 7 (continuation of Highway 90 North) for approximately 28.8 km. Turn West on a gravel road and travel 4.8 km to the said intersection with Provincial Road #236.

Please be sure to log on your log sheet (extras are available in the cache) and the log book the following information:

- **The current date**
- **The current time (HH:MM)**
- **The number of satellites locked**
- **Whether or not WAAS is in use**
- **Distance reported to cache waypoint**
- **Bearing to cache waypoint**

Pier B (Cache 3 of 6)
(50° 14' 28.58826", 97° 19' 19.25495")

OK! Half way there! The next couple are nicely clustered, too!

Your next destination is Pier 1, 7.300896 km from here, at coordinates 50° 10' 55.44255" North, 97° 16' 40.35492" West. Station access description for Pier 1 is:

From the intersection of Highway 101 (Winnipeg bypass) and Highway 7 on the North side of Winnipeg, proceed North on Highway 7 for 22.4 km to the intersection with Argyle Road (Provincial Road #323). Proceed West on road #323 for 1.7 km to station site on North side of road. Pier 1 is the most westerly of 5 piers on EDM Baseline which runs parallel to North side of Argyle Road and crosses Highway 7.

Please be sure to log on your log sheet (extras are available in the cache) and the log book the following information:

- **The current date**
- **The current time (HH:MM)**
- **The number of satellites locked**
- **Whether or not WAAS is in use**
- **Distance reported to cache waypoint**
- **Bearing to cache waypoint**

Pier 1 (Cache 4 of 6)
(50° 10' 55.44255", 97° 16' 40.35492")

This is the first of five piers in the Winnipeg EDM (Electronic Distance Measurement) calibration baseline. If you look to your left on your way to the next cache, you should be able to see three other piers in the baseline.

Your next destination is Pier 5, 2.372532 km from here, at coordinates 50° 10' 55.74627" North, 97° 14' 40.77923" West. Station access description for Pier 5 is:

Pier 5 is located 22.4 km North along Highway 7 from the intersection of Highway 101 (Winnipeg bypass) and Highway 7 to the intersection with Argyle Road (Provincial Road 323), 0.6 km East on road 323 to station on slight rise on North side of road. Pillar is beside a 1.5 m square concrete pad with brass tab (74RCB5E) used for gyro-theodolite calibrations. Pier 5 is the most easterly of 5 piers on the EDM Basenet which runs parallel to North side of Argyle Road and crosses Highway 7.

Please be sure to log on your log sheet (extras are available in the cache) and the log book the following information:

- The current date
- The current time (HH:MM)
- The number of satellites locked
- Whether or not WAAS is in use
- Distance reported to cache waypoint
- Bearing to cache waypoint

Pier 5 (Cache 5 of 6)
(50° 10' 55.74627", 97° 14' 40.77923")

Almost done! One more to go. But it's going to be a bit of a hike....

Your next destination is Pier A, 40.132380 km from here, at coordinates 49° 51' 15.29069" North, 97° 28' 41.69691" West. Station access description for Pier A is:

Pier A is located on an abandoned railway bed approximately 27.1 m South of the centre line of provincial road #241, directly opposite the main entrance to Beaudry Provincial Park. From the junction of Provincial Road #241 and Highway 1 West of Winnipeg, travel approximately 4.5 km on #241 East to junction #424. Continue on #241 East 1.5 km to the station.

Please be sure to log on your log sheet (extras are available in the cache) and the log book the following information:

- **The current date**
- **The current time (HH:MM)**
- **The number of satellites locked**
- **Whether or not WAAS is in use**
- **Distance reported to cache waypoint**
- **Bearing to cache waypoint**

Pier A (Cache 6 of 6)
(49° 51' 15.29069", 97° 28' 41.69691")

That's it! You're done! I hope you enjoyed the tour. This pier is also a part of the Canadian Base Network.

Please be sure to log on your log sheet (extras are available in the cache) and the log book the following information:

- The current date
- The current time (HH:MM)
- The number of satellites locked
- Whether or not WAAS is in use
- Distance reported to cache waypoint
- Bearing to cache waypoint

Please be sure to include the data you have recorded when you log this cache at [www.geocaching.com!](http://www.geocaching.com/)

Thanks for making the circuit. I hope you enjoyed finding this multi-cache as much as I did setting it up.
